## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 4-6, 8-11, 22, 23, 25-28, and 32 are rejected under 35 U.S.C. 102(b) as being anticipated by Khamis #6,050,749.

Khamis discloses the method for constructing a retaining wall, comprising:

- forming a trench in the ground;
- positioning a plurality of retaining wall blocks side by side to form a lowermost course of blocks spaced above the bottom of the trench and having voids between adjacent blocks; and
- forming a concrete footing in the trench and the voids between adjacent blocks to better resist against outward sliding forces exerted by retained earth at the lowermost course (see column 11, line 42 to column 12, line 55).

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2, 3, 7, 12-21, 24, 29-31, 33, and 34 rejected under 35 U.S.C. 103(a) as being unpatentable over Khamis '749 alone. The features would be considered minor modifications which would have been obvious to one of ordinary skill in the art.
